INDICATIONS

Vitamin and Mineral supplement for Dairy Cattle, all Ruminants, Game, Ostriches, Swine, Poultry and Equine.

DAIRY-MIN® Super supply essential organic trace minerals from glycinate and proteinate complexes with magnesium and fat-soluble vitamins fortified with Fulvic acid to assist in immunity, fertility, growth and to support milk quality via favourable somatic cell counts.

DIRECTIONS FOR USE

USE ONLY AS DIRECTED

1. Water application

Use 10 ml DAIRY-MIN® Super Fulvic Supplement per litre of water for 5 to 7 successive days and allow free access. Prevent dilution from fresh water inflow.

2. Oral administration

Use DAIRY-MIN® Super Fulvic Supplement at a rate of 0.5 ml / kg mass for 3 successive days.

3. Following up administration

If the condition is still pending, repeat administration after 7 days or another 3 successive days.

Repeat usage of DAIRY-MIN® Super on identified problem sensitive animals every 3 months.

Take care to prevent dosing into lungs and throat injuries.

Minor gas formation of product is normal.
