INDICATIONS

Vitamin, Mineral and Amino acid supplement for Sheep and Goats. OVI-MIN® + Cu provides essential organic trace minerals, magnesium, amino acid and fat soluble vitamins to assist in fertility, immunity and growth in sheep and goats.

DIRECTIONS FOR USE

USE ONLY AS DIRECTED

1. Application (0,4 ml OVI-MIN® + Cu /kg mass)

Mature Ewes: 25 ml / 65 kg and Rams 45 ml / 100 -120 kg

Lambs to wean: 5 ml / 12 kg

Weaning and feedlotting: 10 ml / 25 kg

2. Water administration (60 ml per 100 L water for 5 days). Prevent dilution from fresh water inflow

3. Usage via Lick applications over 7 days

For applicable mixing application, consult registration holder or distributor based on farm specific lick intake.

Take care with application to prevent lung injury.

This product contains copper and should only be used after veterinary confirmation of deficiency. Do not use in areas where liver-related problems occur. All animals must be vaccinated for pulpy-kidney at least 4 weeks before use.
